SUMMARY

Dynamic Full Stack Developer with over five years of experience specializing in E-commerce, Healthcare, Finance, and Telecom solutions. Skilled in Agile methodologies, analytical problem-solving, and project management, with a proven record of delivering high-performance applications under tight deadlines. Known for fostering collaboration and consistently optimizing system efficiency with tools like Redis, AngularJS, and Next.js.

EXPERIENCE

Senior Software Engineer

Tecaudex   12/2023 - Present   Lahore, Pakistan

- Engineered scalable web applications by leveraging React, Next.js, and TypeScript, achieving a 25% improvement in load times and user experience.
- Led project planning and decision-making initiatives that improved development cycle efficiency by 20%.
- Integrated Redis for backend caching, reducing database load by 30% and supporting a 50% increase in concurrent users.
- Championed a cross-functional approach to project management and collaboration, driving a 40% reduction in project turnaround time.
- Delivered end-to-end full-stack solutions utilizing Node.js and Express, with a focus on maintainability and scalability.

Senior Software Engineer

Techanah   12/2021 - 12/2023   Lahore

- Spearheaded the development and deployment of high-performance web applications with React, React Native, AngularJS, and Next.js, reducing latency by 25%.
- Managed a team of five engineers, coordinating project tasks that contributed to a 30% productivity increase.
- Enhanced front-end capabilities by integrating TypeScript, AngularJS, and Tailwind, enabling 25% faster feature rollouts.
- Leveraged Redis and MongoDB for optimized data caching and storage, which reduced response time by 40%.

Sr Frontend Developer

Viral Square   10/2018 - 12/2021   Lahore

- Developed and maintained scalable, user-focused web applications using React, AngularJS, Redux, and Material-UI, enhancing client satisfaction by 20%.
- Established and implemented testing protocols with Jest and Enzyme, achieving a 30% decrease in bug-related delays.
- Architected responsive UI components with Styled-components, resulting in a 15% faster design implementation.
- Applied MongoDB and PostgreSQL for data storage solutions, ensuring data integrity and accessibility for end-users.

EDUCATION

Master's Degree in Computer Science

Punjab University College of Information Technology (PUCIT)
2016 - 2018

STRENGTHS

🌐 Web Technologies

Proficient in all major web technologies

💡 Analytical Problem Solver

Analyzes and resolves complex technical issues effectively and efficiently.

😊 Team Collaboration

Promotes team collaboration, ensuring seamless integration and communication.`

👤 Adaptability To Technologies

Eager to learn and adapt quickly to new and emerging technologies.

SKILLS

Frontend

JavaScript, React.js, AngularJS, Redux, Mobx, Next.js, TypeScript, Tailwind, CSS3, SCSS, Material-UI

Backend

Node.js, Express, Redis, MongoDB, PostgreSQL

Tools

Enzyme, Jest, Git, Jira

PROJECTS

Happify Earth

10/2023 - 04/2024   Techanah

Full-stack developer responsible for writing clean, scalable code across mobile applications and backend systems. Improved cross-platform performance by 20%.

- https://play.google.com/store/apps/details?id=com.happifymobile
- https://apps.apple.com/ua/app/happify-earth/id6470927980

Youhue

03/2023 - 02/2024   https://app.youhue.com

Led the team in developing school management modules, boosting efficiency by 30% through streamlined functionalities and code optimizations.

Dig local

01/2022 - 01/2023   Viral Square   https://diglocal.com

Work as lead developer. work on the scope card module, and use profile modules

Zoomprop

01/2024 - Present   Tecaudex
https://www.zoomprop.com/

Revamped the entire UI to version 3, collaborating across departments to improve user engagement by 25%.

Answer the Public

01/2024 - Present   Tecaudex
https://answerthepublic.com/

Enhanced front-end development with ReactJs, achieving a 20% increase in scalability for high-traffic use.

Event Staffing

02/2021 - 12/2021   ViralSquare
https://eventstaffing.co.uk

Built responsive interfaces for the platform, which streamlined client-staff communications, improving scheduling efficiency by 15%.

Lawmatics

2019 - 2020   ViralSquare   https://www.lawmatics.com

Developed reusable React components, resulting in a 25% reduction in code redundancy and enhanced code maintainability.
